Withdrawal Consequences

In case of a valid withdrawal you need to send us all items back and we will return your payment.

In case you can not return the ordered items to us or just parts of it, or only in bad condition you will be charged for the loss in value unless the bad condition of the returned items was caused by testing the items as you could have tested them in a retail store.

In general you can avoid any loss of value of items if you use them very carefully, avoiding any damage by not using them like an owner would until you're sure you want to keep them.

You have to cover shipping costs for returning the ordered items.
